We have a complete stock of SPRAYERS & SPRAY MATERIALS-----DUSTERS & DUSTING MATERIALS

### BREEDING PROGRAM

Every female must be of good, standard, egg-laying type, free from disqualifications, and of good size and vitality. The males are all selected for their size and constitutional vigor.

Each bird has been individually culled, pullorum tested, leg banded, and approved by a Liscensed State Agent. Some of our flocks when bloodtested for pullorum disease show no reactors; none are accepted that show over 3% reactors.

Cofer's U. S. Approved, Pullorum Tested BABY CHICKS:
